Simply The Story (STS) Workshop Locations

***We are now offering an Online STS Workshop***
See below for upcoming trainings

***

Below we list STS workshops now scheduled in various locations worldwide. Many workshops are in remote areas or the registrations are instantly full, so not all workshops are listed. For information on scheduling a world workshop, please write to one of these contacts:

STS Headquarters

Worldwide Contacts

After workshops, attendees show a thirst for learning more stories and deeper training, which has led to the establishment of Oral Bible Schools (OBS). In these OBSs, students gather regularly to learn over 296 stories.

Schedule Options

**One-Stop Workshop Schedule**

This schedule covers the 37 hours needed to teach people how to be an STS Practitioner and starts them on the skill of storytelling. This immediate training to train kind of teaching is central to the rapid growth and replication of STS worldwide.

For these workshops, out-of-area instructors, sometimes even out-of-country instructors, come together to lead the 18-hour workshop.
Then, in the remaining 19 hours, a Practitioner Training is done for people who are new to STS. They are trained up to be able to assist in training the new arrivals. This very full 37-hour schedule has been called "drinking out of a bucket."

**Local Workshops:** Our goal and prayer is to have enough local instructors available all over the world so these local STS instructors are trained up to go into their own communities and to then go home and practice their skills some before they come back the next time to receive more information.

For Local Workshops, most attendees will not have to travel far or stay overnight so there is little or no cost to anyone involved. Directions for setting up Local STS Story Practice gatherings. A few of those cities are listed below within the Upcoming World Workshop information.

Contact the regional leadership or the USA office for full One Stop Practitioner/Trainer 37-hour workshop support.

**Vision Casting:** Also in these "staffed" locations, STS vision castings can be done. Vision casting covers the need for oral strategy, how one can train others in oral storytelling, and provides attendees an opportunity for hands-on learning of digging into a story as well as a glimpse into the how-to of STS.

**Alumni Advanced Workshop**  Those who attend an STS workshop decide later that they want more coaching. We love to spend more time with those who have had workshop training, want to move toward becoming a certified instructor, or have been an STS instructor and want to receive more coaching. Alumni Advanced Workshops are often set up to be one to five days long and can be run as a stand alone or alongside a standard One Stop Workshop.

**Instructor Advanced Training**  If you have had workshop training, want to move toward becoming a certified instructor (and are willing to do some advanced training), lead these trainings. We reserve the right to gauge attendee readiness for this training.

**Comprehensive STS Leadership Training**  These occasional in-depth trainings cover a wide range of skills that prepare qualified attendees for leadership use of STS, including Oral Bible Schools and Country Planting. These 4-to-6-week trainings are currently led at Bethel located at the STS Hemet, CA headquarters. As this is an advanced level training, attendees are selected from interviews and recommendations by lead instructors.
